WERE ORDERED PARASITE SENT TO GET OUT TO JAIL FOR OF TOWN 45 DAYS

Jack Arbuckle, C. H. McDonald and James Carr, charged with vagrancy, travel about the country because they are told to do so, according to their stories in police court this morning for each member of the trio had been given a "ticket" out of Salt Lake and was arrested in Ogden after having failed to get out of the city in the time prescribed by the local detectives.

Arbuckle, who has a wife and two children in Boise, uses opium, McDonald claims to be a cook and Carr said that he was just beginning to find his way in the city.

Each member of the trio stated that he had been told to keep out of town by the detectives, but could not leave as there was no freight train. They did not care to walk as the snow made their feet cold. Information concerning them had been sent up by the Salt Lake police. Judge Reeder gave Arbuckle and McDonald each five days and suspended sentence upon Carr, advising that young man to start on a new path before he goes down deeper.

CARD OF THANKS

We desire through the columns of the press to extend our heartfelt thanks to all our friends who during the illness, death and burial of our beloved father, Alexander Muirbrook, extended their kindness and loving sympathy. May He who blesses for all good ever reward you. Sincerely,
ALEXANDER MUIRBROOK, JR.
BROTHERS AND SISTERS.

Forty-five days was the sentence given to Robert Ray, a young man charged with vagrancy, by Judge W. H. Reeder this morning. The specific charge against Ray was that he was in company with a girl in a Grant avenue rooming house.

Sergeant Mohman, the arresting officer, stated that he had been investigating the actions of Ray for some time and when the fellow was accused several days ago he did not deny the charge. No arrest was made at the time as Ray promised to leave the city or secure lawful work. The sergeant also stated that Ray frequently took whisky to the room. He was arrested while quarrelling with the girl in question.

Ray did not deny that he associated with the girl, but stated that it was his own money upon which he had been living and that he had never given whisky to the girl. Upon being questioned he admitted that he was frequently on the streets at all hours of the night but he said his purposes were lawful.

Judge Reeder declared that if Ray were not a social parasite he was on the verge of becoming one and that a sentence in jail would perhaps teach him a lesson.

REV. COWLES DIES AT ADVANCED AGE

Elmira, N. Y., Mar. 15.—Rev. Augustus W. Cowles, president emeritus of the Elmira college for women, died in this city today.

WAITING WORD FROM THE COURT NO COURT WILL BE HELD FIRST OF WEEK

W. A. Larkins of the Dinwiddie Construction company, which has the contract for building the Eccles steel skyscraper on Twenty-fourth street and Washington avenue, will leave Ogden for the coast tomorrow on a week or ten days' trip, expecting in the mean time definite information regarding the time for beginning construction.

Speaking of the situation this morning, Mr. Larkins said that material for the building is at hand and that his company is ready to begin operations on a moment's notice and that, if he should receive word while on his contemplated trip west that the supreme court had rendered a decision, he would immediately retrace his steps and hurry back to start things going.

However, decision or no decision, Mr. Larkins will award contracts on his return home for certain parts of the work, including the placing of the steel, carpenter work, concrete work and other branches of construction.

The attorneys in the suit before the supreme court between the Commercial National bank and David C. Eccles, administrator for the estate of the late David Eccles, have been expecting a decision from the court a number of days, but it has not yet been handed down. It was thought that a decision might possibly be given today.

While the decision of the court may have a bearing on the plans of the Eccles people regarding the ground space of the building, it is authoritatively stated that the skyscraper will be built in the early part of the year.

DRUNKEN MAN STRIKES A WOMAN

While in a drunken rage, a young foreigner who gave his name as John Doe, struck Mrs. Emma Lindsay, the proprietor of the Lindsay rooming house on Twenty-fourth street, last evening, with a cane inflicting several cuts upon her head. The man was arrested by Sergeant C. E. Layne and given a sentence of ninety days or \$90 by Judge W. H. Reeder this morning, after pleading guilty to a charge of disturbing the peace.

According to the evidence, the foreigner, who is employed at the shops, has been rooming at Mrs. Lindsay's several months and has behaved himself during that time. Last night, however, he came to the rooms in a drunken condition and, after abusing Mrs. Lindsay because she would not cook him a steak, grasped the cane from the husband, and, after pushing him to the floor, struck Mrs. Lindsay several times over the head.

The woman succeeded in calling the police by telephone. When Sergeant Layne arrived on the scene he found Mrs. Lindsay bleeding from the cuts which, while painful, did not prove serious.

The foreigner showed great remorse for his actions. He broke down completely and sobbed after being sentenced. He did not excuse himself, but said that his actions were caused by his drunkenness. He remembered little of what occurred.

WHIPPING POST ADVOCATED BY REEDER

So great was Judge W. H. Reeder's indignation at the actions of Jacob Johnson, leading up to the man's arrest last night on the complaint of his wife, that he expressed the desire for a whipping post to take care of such offenders. The judge said that a good sound whipping would be the best treatment for such people.

Johnson was arrested at his home, 2549 Grant avenue, by Sergeant Mohman last evening after he had frightened his wife by his actions while drunk. Johnson was charged with disturbing the peace.

The prisoner stated that he is a machinist's helper in the local shops making the fifth shopman to face Judge Reeder in two days, and that he had become drunk after receiving his monthly pay check. He admitted that he had abused his wife and had broken up the furniture at home and, under pressure, he stated that the scene of last night had not been the first.

When asked if he would swear to abstain from liquor, he announced that he would never get drunk, but asked to be permitted to drink occasionally. The judge stated that he would not accept such a promise and ordered the case continued, which alarmed Johnson to a great extent, who said that he would lose his position unless he reported to work before noon. He agreed to refrain absolutely from drink in the future and secured a suspended sentence.

OPERATED ON IN BOSTON HOSPITAL

Brigham City, March 14.—Word was received in this city yesterday that Joseph Frodsham of Lakeside, three miles north of Brigham, was operated upon in a Boston hospital. Frodsham went to Boston a week ago for the removal of a silver plate that had been placed in his head a number of years ago when he received a badly fractured skull from the effects of a kick by a broncho. The plate began to cause trouble some time ago, and Mr. Frodsham went to Boston to seek relief. The operation was reported as successful.

The time of Judge Harris was taken up yesterday afternoon by attorneys in the \$20,000 damage case of John Hughes against the Salt Lake & Ogden Railway company arguing a motion for non-suit, the court taking the matter under advisement. A decision was not rendered this morning and the jury was dismissed until Wednesday, when the judge is expected to pass on the question.

This morning, after passing sentence for assault with intent to commit murder and for burglary, the court announced that an adjournment would be taken until Wednesday out of respect to the memory of the late Reese Howell, father of Judge James A. Howell. The clerk was instructed to advise the Ogden Bar association of the action of the court.

Judge James N. Kimball, president of the association, when notified of the action of Judge Harris respecting the death of Mr. Howell, stated that he would call a meeting of the members Monday to take such steps as may be deemed proper in the matter. He said the members of the bar undoubtedly would attend the funeral in a body and that in all likelihood a committee would be appointed to draw resolutions of respect and condolence. It is expected that the funeral will be held Tuesday.

SCHOOL HOUSE CONTRACT LET

Brigham City, March 14.—The board of education yesterday let the contract for the erection of the Thatcher school house to M. E. Anderson of this city. Anderson's bid was \$11,110. The contract for the plumbing and steam heating was let to Halverson Bros., plumbers, of Ogden, for the sum of \$3388. The matter of installing a gymnasium in this building was deferred until some future date. The board considered the question of employment of teachers for the 1913-1914 school year.

BAD MOTHERS HAVE THE BEST CHILDREN

Washington, March 15.—That bad mothers raise better and more vigorous children than good mothers, was the assertion made last night by Dr. Gustave Blumenthal, a noted physiologist of Australia, before the Home and School association. Dr. Blumenthal also declared that "spinsters who had missed the matrimonial market" were a complete failure in Australia.

"Good mothers send more boys to jail and into the evils of crime," he said, "than do bad mothers. The indifference of a bad mother is better for the child in its battles with life later on than the pampering and loving lavished on him by an overfond parent."

Dr. Blumenthal would encourage fighting among boys and said he would even go so far as to give his boy a reward for every black eye he had given an opponent without receiving one in return. He declared there were too many ladies and gentlemen and not enough men and women in the present age.

DIVORCED WIFE WINS LIBEL SUIT

Vancouver, B. C., Mar. 15.—Mrs. Denis Hallen, divorced wife of William Holden, a multi-millionaire broker, was awarded a verdict for \$25,000 against the latter in a libel suit decided yesterday by a jury in the supreme court.

According to the testimony, Holden gave to a newspaper a statement to the effect that a detective had testified at the Vancouver assizes last May that Denis Hallen, the present husband of the plaintiff, had been arrested in the latter's bedroom. Hallen's arrest resulted from his having sent threatening letters to Holden. The jury decided that the accusation against the woman was false.

BISHOP HAS A BROKEN LEG

Brigham City, March 14.—While engaged in helping carpenters who were erecting his home, David P. Burr, bishop of the Third ward, met with an accident in which he received a broken leg. Burr slipped off a pile of wet lumber and his right leg became twisted under him in such a manner that, in releasing himself the fibula or small bone of the right leg was broken a few inches above the ankle.

PRINCESS RIVERIA, CLAIRVOYANT AND PALMIST

The gifted mystic tells you the truth—your name, what you want to know at a glance. Her powers have mystified the most skeptical. Business, love, speculation, courtship, marriage, divorce, brings the separated together, tells if love is true, when and how you will marry; how to win the one you love; conquests, enemies, success in your undertakings, obtain employment; guarantees success when all others fail. Prices to suit you. If you are in trouble, need advice, a friend, call on this gifted lady or write in perfect confidence. 221-1-2 25th St. (6 questions by mail, \$1.00) Open Sundays.

"WHERE THE WOMEN TRADE"

ENTIRE CAR OF ORANGES IS FROSTED

After almost the entire afternoon had been spent in examining oranges selected at random from a carload, the board of health yesterday afternoon ordered that the entire car of fruit from California be condemned. The car is now in the local yards awaiting the pleasure of the shippers.

The fruit in question has been in Ogden three days and has been the cause of considerable friction between the food inspectors and the commission men.

Upon the date of arrival of the car complaints reached Inspector George Shorten that the fruit was not in good condition and he paid a visit to the yards, selecting several samples from different cases. These were taken to his office for examination, with the result that he declared the fruit to be in fair condition. He stated today that he did not know just where he stood in regard to condemnation proceedings and feared that an injustice might be done.

The matter, however, was not dropped, as the head of one commission firm objected to the sale of oranges by another firm, when those oranges were bad, and he urged that the whole car be examined.

As a result, a meeting of the board of health was called and several cases of the oranges were brought to the city hall. Several commission men attended the meeting and much discussion of the subject took place.

The cases were broken open and the oranges examined. The general condition of the fruit was such that the board agreed that the fruit should not be offered for sale and such an order was issued.

ORGANIZE FOR THE SOCIAL WELFARE

Under the auspices of the Ogden Ministerial association and Ladies' society, Harry F. Ward, secretary of the Federation for Social Service, and author of the "Social Creed," addressed a union social service mass meeting at the Methodist church last evening. The meeting was attended by representatives of the Socialist party and Trades and Labor council.

Mr. Ward is one of the founders and leaders of the movement that has progressed among the Protestant churches to adopt a social creed to be used by all denominations. He has had wide experience at the head of industrial and settlement work institutions and has actively assisted in many movements for social progress.

A conference was held after his address last evening and those assembled decided to form a central council for social welfare, to which council each group present should appoint three representatives. The groups present were the Ogden Ministerial association, the Ladies' society, the Trades and Labor assembly and the Socialists.

This central council will study out concrete problems and unite the different groups wherever possible for the social common good.

Rev. G. A. Rasmussen acted as chairman of the conference and will act temporarily as secretary until a more permanent organization is effected.

CITY TO TAKE OVER LIBRARY

Brigham City, March 14.—The city council at its meeting last evening voted unanimously in favor of taking over the Mutual Improvement library. The building is located on the city square, and the city, with its 2-mill special library taxation levied for the purpose of securing an appropriation from Andrew Carnegie, will use the \$2,000 derived from this special tax for improving and maintaining the old M. I. A. library. Improvements will be made immediately.

WEEKLY SUMMARY OF STOCK MARKET

New York, March 15.—Tightening money rates acted as a check on stock market speculation this week. Call money touched 6 per cent, the highest since the first of the year, and some short time loans were placed at the same rate. The demand for accommodations from Germany to relieve the stringency there continued, and further shipments of gold abroad depleted surplus reserves of the clearing house banks led to some calling of loans and the dubious outlook in the money market heightening the disinclination to engage in operations on the long side of the stock market. This condition tended to strengthen the position of the bears, and the stock market during the week was hesitating, with alternating declines and rallies. Rather extensive buying here by Europe, owing to improvement in the European political situation, and covering of short contracts lifted prices for a time, but there were evidences of liquidation on every rally and the market showed no sustained strength. Varying reports concerning the chances of carrying out a plan for dissolution of the Harri-man properties under the underwriting agreement influenced speculation in Union Pacific and Southern Pacific, which moved erratically.

GOVERNOR WEST GRANTS REPRIEVE

Salem, Ore., Mar. 15.—Because March 21 falls upon Good Friday, Governor George H. Stephens, the murderer of Mrs. Eliza Griffith of Philomath, have been accorded an extra twenty-four hours of life. Governor West, through the intervention of the spiritual adviser of the brothers, yesterday put off their execution until Saturday, March 22.
